## PROFESSIONAL SUMMARY

MSc candidate in International Business Management (Berlin) – B.E. Mechatronics with **Grade 1.3 equiv. (9.2 CGPA)**. Hands-on experience in high-volume fulfillment logistics (Acut Fulfillment GmbH, Berlin) and industrial QA (Madras Engineering). Combines engineering precision with a data-driven mindset to identify inefficiencies and drive measurable process improvements.

## CORE SKILLS

### Operations & Supply Chain

- Fulfillment Operations
- Inventory Management
- Reverse Logistics
- Process Optimization (Lean)
- Carrier Coordination (DHL/DPD/GLS)

### Technical & Analytical

- Excel (Pivot Tables, VLOOKUP)
- Power BI – Dashboards
- Python (Data Analysis)
- BPMN Process Mapping
- R – Statistical Analysis

### Business & Professional

- Data-Driven Decision Making
- Quality Assurance (PDI)
- Problem Solving
- Team Collaboration
- Reporting & Documentation

## PROFESSIONAL EXPERIENCE

### Warehouse & Fulfillment Associate | Acut Fulfillment GmbH, Berlin | Jun 2024 – Present

- Processed 120–150 orders per shift across 2–80 kg products in a high-volume environment.
- Coordinated shipments with DHL, DPD, GLS ensuring efficient and on-time dispatch operations.
- Managed inbound logistics: goods receipt, quality inspection, and structured stock placement.
- Handled returns / reverse logistics, inspecting and reintegrating items into sellable inventory.
- Supported outbound operations: picking, packing, and shipping preparation.
- Identified workflow inefficiencies across inbound, outbound, and returns processes.

### Quality Engineer | Madras Engineering, Chennai, India | Feb 2023 – May 2023

- Conducted Pre-Dispatch Inspections (PDI) ensuring high-quality machine delivery to clients.
- Monitored machine performance and tool-life metrics hourly across VMC and lathe operations.
- Reduced defects through structured QA processes and systematic reporting practices.

### Shop Manager (Part-Time) | Independent, India | Sep 2022 – Aug 2024

- Managed daily operations, inventory tracking, and vendor coordination.
- Resolved technical issues improving operational efficiency and customer satisfaction.

## EDUCATION

### M.Sc. International Business Management

University of Europe for Applied Sciences, Berlin | 2024 – 2026 (Expected)

### B.E. Mechatronics, Robotics & Automation ★ Grade: 1.3 (9.2 CGPA)

Sathyabama Institute of Science & Technology, Chennai | 2019 – 2023

## KEY PROJECTS

- Warehouse Workflow Analysis** – Identified 3 bottlenecks in reverse logistics using BPMN mapping.
- Power BI Sales Dashboard** – Built KPI dashboards for sales performance analysis.
- RSSI Attendance System** – Automated indoor attendance tracking via signal analysis.
- Org Change Study (NOVEMA)** – Business restructuring plan for a German family company.

## CERTIFICATIONS

- Machine Learning & Big Data – DeepLearning.AI
- IBM & Google Data Science Certificates
- Python Programming – Google
- Microsoft Excel Mastery
